

KNOW THE SIGNS

Construction Work Zone Safety Tips — Slow Down and Drive with Caution

DRIVERS TRAVELING TOO FAST AND NOT PAYING ATTENTION ARE THE MAIN CAUSES OF WORK ZONE CRASHES. FOLLOW THESE SAFE DRIVING TIPS:

- ▶ Obey posted speed limits. The fine for speeding in a work zone is \$300.
- ▶ Drive undistracted. Cell phones, mobile devices, adjusting the radio — even eating — should be avoided in work zones.
- ▶ Stay alert, especially at night.
- ▶ Be patient. Expect delays, especially during peak travel times.
- ▶ Expect work zones to constantly change. Day to day you could experience lane shifts, closures or moving workers and vehicles.
- ▶ Don't make unnecessary lane changes.
- ▶ Do the zipper merge.
- ▶ Never enter a road blocked with barriers or cones.
