

**Work Zone Safety 2024
Social Media Post
v.3.25.2025**

Users: Social media images are available [here](#).

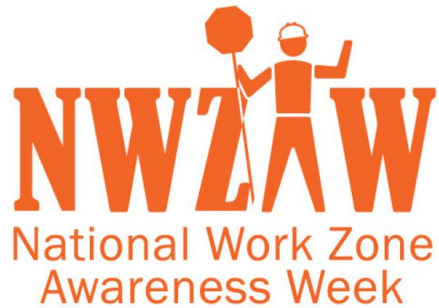

Preliminary data shows between 2018 and 2022 44 people died and more than 3,682 were injured in work zone traffic crashes in Minnesota. Don't add to those statistics in 2024.

A big spring crop of orange cones is emerging along Minnesota roadways as repairs and other roadside projects get underway in full force after our record mild winter. And with that comes an unwanted bumper harvest – crashes, injuries and fatalities in work zones. Be sure to reduce your speed while traveling through work zones, paying close attention to signs and signals. Be aware of vehicles around you, especially trucks. Pay close attention to road workers and flaggers – slow down, give them extra room and be ready to stop.

The sign says Work Zone Ahead – time to get ready! When approaching lane closures, do the zipper merge and watch for blind spots. Avoid rear-end crashes by leaving extra space between you and the vehicle ahead. Protect workers, yourself and other motorists and passengers. #MNworkzonesafety #slowdown #payattention #DriveSafeMN #DoltforME #StateFarm #DoltforTHEM #NWZAW #Orange4Safety

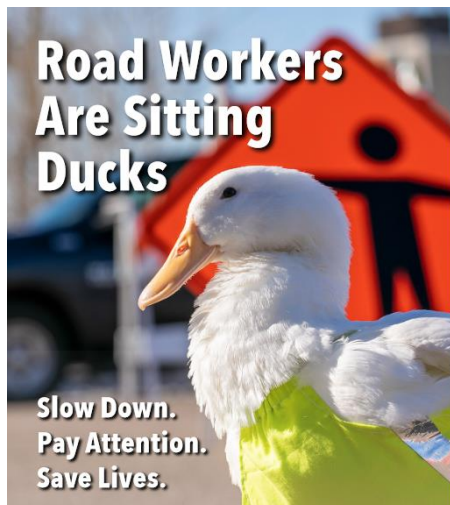

Listen to @MinnesotaDuck Ben Afquack. Slow down when you encounter work zones. Remember, road workers are sitting ducks. Between 2018 and 2022, 44 people died and more than 3,682 were injured in work zone traffic crashes in Minnesota.
